

CONTEC Mini Pump "Air Support Pocket"

blue

RRP: €21.95

A mini pump must meet a wide range of requirements. But first of all, there is one thing that is most important: It should fit into every pocket not matter how small. The popular mini-pump "Air Support Pocket" by CONTEC is designed precisely for this. With its 21 cm, it disappears into every jersey pocket in a flash.But at least as important as the size is the pump performance, especially for mini pumps. In the end, the ride should continue as quickly as possible. "Air Support Pocket" generates a very high air pressure of up to 7 bar (100 psi). No need to worry about valves not fitting. Because the pump is suitable for all valves. This means that the rider is definitely on the safe side.The pump consists of an aluminium housing and works with a compact FlipValve head system. It can be easily operated with a lever on the head. The valve head, in turn, is connected to a flexible hose and can be extended up to 15 cm.The "Air Support Pocket" comes with a bottle cage mount. The mini pump is available in silver, blue, yellow and red. The ideal companion for a bike ride.

Basic Data

Supplier Article Number:	GP-87E-BLUE
EAN	4250311336060
MSRP:	€21.95
Fedas-Code	160653
