

CONTEC Stand Pump "Air Support Stealth"

black

RRP: €69.95

Precise & powerfulEspecially when mountain biking or road cycling, an optimally tuned tyre pressure is crucial for good rolling properties on different surfaces and in different weather conditions.The CONTEC floor pump "Air Support Stealth" allows tyres to be filled up to 12.5 bar or 180 psi and thus meets the high demands of professional road cyclists.Thanks to the practical clever Twin valve head, the floor pump fits on all valves. The high-volume aluminium pump barrel is used to pump the tyre particularly fast and efficiently. The air pressure can be read easily from the clear 3" pressure gauge with psi and bar display.The stable and extra-wide steel base ensures easy operation and a good footing, with which the pump can be easily held to the floor with the feet while pumping. In addition, the ergonomic T-handle, which is coated with Kraton rubber, ensures the best grip.The CONTEC floor pump "Air Support Stealth" made of high-quality aluminium and steel is available in discreet black and designed for regular use when cycling everyday.

Basic Data

Supplier Article Number:	GF-71
EAN	4250311320496
MSRP:	€69.95
Fedas-Code	160651
SB-Article	Yes
Bidex-Code	301630
DST-Code	2I01
Brand/Supplier	CONTEC
Unit of measure:	PIECE
Weight	1.73 kg

Technical Data

Design	floor pumps
Features	pressure gauge
Foot material	steel
Main colour	black
Max. pressure	12.5 bar
Max. pressure	180.00 PSI
Range of application	universal
Technology	TwinValve
Valve type	Dunlop (DV) , Schrader (AV) , Sclaverand (SV)
Variant	Article
