

CONTEC Chain "Green Power"

GP.1N, 1/2" x 3/32", workshop package with 30m (2364 links), incl. 25 connecting links

Price: €5.99

Green power on the chainCycling is already something for the environmentally conscious, but with the CONTEC "GreenPower" Singlespeed bicycle chain, which has an environmentally friendly anti-rust coating, this can be done even more consistently. Because even in production and maintenance, bikes should be as friendly to the environment as possible. The titanium grey "GreenPower" Singlespeed meets this requirement with its integrated rust protection made of environmentally friendly material. The chain with 112 links including a master link is already coated with an anti-rust coating. This saves work, material and nerves during maintenance. Just clean occasionally with a cloth and remove stubborn dirt with a toothbrush. Grease it with wax, oil or silicone and the next ride can be tackled - even in wet weather, without worrying about rust development. The "GreenPower" Singlespeed bike chain in an elegant titanium grey is a must-have for any environmentally conscious biker who values the design, quality and longevity of bicycles and spare parts.

Basic Data

Supplier Article Number:	TA-408H GST500 30MBX
EAN	4250311304083
MSRP:	€209.95
