

CONTEC Chain Tensioner "Singlespeed"

single speed 1, simple tensioning capacity, 104g, self-service package

RRP: €25.95

Singlespeed conversion for any frameFast riding pleasure and drastically reduced wear due to the elimination of additional shifting components: These are good reasons for many bicycle messengers and enthusiasts to choose a singlespeed bike.With the CONTEC chain tensioner "Single Speed", the conversion to a wonderfully uncomplicated singlespeed bike is also possible with vertical dropouts, which can be found on many modern frames. The chain tensioner is simply attached to the derailleur hanger instead of the derailleur, allowing the use of a rear wheel with a single sprocket.Thus, all road, touring or mountain bike frames can be easily converted to a sporty singlespeed or, if the width of the rear triangle is appropriate, converted to an internally geared hub (e.g. a Rohloff). The chain tensioner is available for all your needs in a basic tensioning capacity (104 g) and an increased tensioning capacity (138 g).The CONTEC chain tensioner "Single Speed" is the ideal solution for those who want to quickly and easily convert their bike with vertical dropouts to singlespeed or a drivetrain with an internally geared hub.

Basic Data

Supplier Article Number:	SSP-11-1
EAN	4250311302003
MSRP:	€25.95
DST-Code	2R11
SB-Article	Yes
Bidex-Code	202090
Fedas-Code	160364
Brand/Supplier	CONTEC
Unit of measure:	PIECE
Weight	0.124 kg

Technical Data

Main colour	black
Variant	Article
