CONTEC Pedal "Verge"

black / silver

RRP: €29.95

Non-slip & reflectiveThe perfect pedal for sporty rides, even through challenging terrain: With a non-slip contact surface and a widely visible reflector, CONTEC offers a touring pedal with which you can safely master challenges.Many people know the feeling: You are riding home tired, but happy from a bike ride at dusk and fear that other road users can't see you? With the CONTEC touring/trekking pedal "Verge" under your feet, you can breathe easy and have peace of mind. Thanks to the reflector on the pedal, for example, drivers already see the bicycle from far away.When it comes to safety, the non-slip contact area on this 9/16" pedal is also convincing. A ingenious profile around the aluminium cage ensures that you never lose grip, even in the case of quick descents, sudden rain or rough tracks. Instead, you can relax and concentrate on the landscape or your riding buddies, for example.As an experienced touring cyclist, you know: Any excess weight on the bike should be avoided. CONTEC even applies this principle to the pedal. The "Verge" is a high-quality touring pedal, which with its sealed cartridge bearing, the stylish CrMo axle and the robust aluminium body only weighs a low 304 g. This pedal is also at the forefront of design: Sparkling chrome, sleek black and the yellow-orange of the reflectors form a strong optical trio, making it a real eye-catcher.With the "Verge" from CONTEC you get a unique touring/trekking pedal for your bike!

Basic Data

Supplier Article Number:	WE- LU-C32B
