

CONTEC Pedal "CPI-048 QR"

silver / black

Price: €29.99

Robust and flexible Taking the bike on the train and bus or simply loading it into the boot offers a ton of options when you reach your destination - that is why many commuters and cyclists combine the advantages of different means of transport with the bicycle. But this also often means that every centimetre has to be used in a meaningful way. The CONTEC MTB/ATB pedal "CPI-048 QR" with the practical QRDII quick release system enables fast and uncomplicated assembly and removal of the pedals: Once screwed into the common 9/16" thread of the crankarm, the aluminium pedals can easily be securely fastened and removed without tools with just one movement. The "CPI-048 QR" is self-service packed and comes with 2 practical storage bags. The pedals themselves consist of a robust, corrosion-resistant aluminium body and a stable aluminium cage with a grippy profile on a heavy-duty axle made of especially tensile-resistant CrMo steel. Thanks to its robust quality and sealed cartridge bearings, which are resistant to dirt and moisture, the "CPI-048 QR" is ideal for use on touring bikes, mountain bikes or versatile folding bikes.

Basic Data

Supplier Article Number:	WE- QRDII-C128B
EAN	4250311334059
MSRP:	€59.95
Bidex-Code	202310
SB-Article	Yes
Fedas-Code	160373
DST-Code	2N02
Brand/Supplier	CONTEC
Unit of measure:	PAIR
Weight	0.34 kg

Technical Data

Bearing type	sealed bearing
Design	MTB
Frame material	aluminium
Housing material	aluminium
Main colour	black
Secondary colour	silver
Thread	9/16
Variant	Article
