

CONTEC System Pedal "NY-505050"

black

RRP: €69.95

A pedal that functions reliably brings numerous advantages to the cyclist. When things get rowdy on an MTB, road or trekking bike, you can quickly slip off the pedal. With the "NY-505050" pedal by CONTEC, this definitely doesn't happen any more.The clipless pedal is designed for MTB and trekking. Its special feature is that it combines the functionality and reliability of the SPD system developed by SHIMANO with the versatility of a nylon platform. The user benefits from the fact that the contact area made of nylon is particularly large and thus provides excellent grip in addition to the SPD system.With a weight of 350 g, the plastic pedal is relatively light and offers high-quality sealed cartridge bearings, a CrMo axle and a grippy surface.The SPD system is located on one side of the pedal and has a CrMo binding with adjustable release hardness. It is supplied with cleats.With the CONTEC pedal "NY-505050" you equip your MTB or trekking bike excellently, as it can be pedalled very efficiently. The SPD system makes using it easy.
