

CONTEC System Pedal "SPADE"

black

RRP: €69.95

Compact & controlledThe ideal pedal for MTB lovers combines durable robustness with individual riding pleasure. The CONTEC MTB/trail pedal "SPADE" combines these two demands in a single pedal.Riding an MTB takes you off the beaten path. There, rapid mountain descents, bumpy trails and muddy ground give cycling enthusiasts that typical MTB feeling, but also require an absolutely durable pedal. The 9/16" measuring "SPADE" by CONTEC scores in this context with its sealed compact axle bearing unit. It also enables the proven function and reliability of the SPD system to be used.With "SPADE", CONTEC has developed an MTB clipless pedal that promises its users an extra plus in control. This is already realised by the significantly increased contact area. In addition, the open design of the pedal offers few opportunities to collect dirt and mud. In addition, the release hardness can be flexibly adjusted for the one-sided CrMo binding. This means that every MTB rider can customise the clipless pedal according to their own needs.The single-sided pedal is supplied with cleats and offers long-lasting quality thanks to the replaceable pins. Lightweight at just 386 grams, the pedal is the perfect foundation for spontaneous manoeuvres and fast sprints. The shimmering chrome binding, together with the shiny pins, provides attractive contrasts that draw the eye to the pedal, which is otherwise held in classic matte black."SPADE" is the ideal companion for extensive MTB rides. The pedal combines personal adjustment with controlled pedalling and is also a pro when it comes to preventing dirt build-up. The ideal pedal for rough terrain, unfavourable weather and a sporty riding style!

Basic Data

Supplier Article Number:	SC-M203
EAN	4250311340302
MSRP:	€69.95
Bidex-Code	202320
SB-Article	Yes
DST-Code	2N02
