

CONTEC QR Wrench Set "SQR Select + S"

limousine black

Price: €7.99

Effectively protected from theftSuper annoying: When you leave your bike locked, sometimes thieves come by and steel the seatpost or wheels. The "SQR Select +" quick release set reliably prevents this. The set consists of a locking spanner, a front wheel axle (M5 x 112 mm), a rear wheel axle (M5 x 145 mm) and a seatpost clamp (M6 x 45 mm). It provides excellent protection against theft: The quick releases can only be opened with the special security lever. The axles of this set are made of high-quality chrome-molybdenum steel. Here, you benefit from a high tensile strength as well as good anti-break properties. The aluminium 6061 of the axles also has a high tensile strength. It also is lightweight. With this quick release set, you can choose from many attractive colour designs in the "Select" family by CONTEC.

Basic Data

Supplier Article Number:	JD-060-3 A3 BLACK
EAN	4250311356419
