

CONTEC Cable Cover "Shift"

black

Price: €10.99

Perfect fit for derailleur cable outer casing Only properly adjusted shifting components awaken the fun of cycling. Whether on MTBs, racing or touring bikes - derailleur cables and outer casings should be replaced as part of every inspection if they are corroded. Moisture constantly penetrates outer sheaths and leads to corrosion of the shift cables. These expand as a result and prevent smooth shifting operations. The CONTEC cable end ferrule "Shift" made of plastic with a diameter of 4mm nestles particularly well to the ends of the derailleur cable outer casing. It thus effectively prevents the penetration of moisture and leaves no scratch marks on the frame. The CONTEC cable end ferrule "Shift" is ideally combinable with the derailleur cable outer casing "Shift" and can thus be used with many common hubs and derailleurs. The cable end ferrule is supplied in a bottle of 150 pieces - perfectly suited as a stock pack for the workshop at home.

Basic Data

Supplier Article Number:	CX20DP
EAN	4250311341101
MSRP:	€24.95
Fedas-Code	160354
SB-Article	Yes
DST-Code	2R08
Bidex-Code	202190
Brand/Supplier	CONTEC
Unit of measure:	PACKAGE
Weight	0.83 kg

Technical Data

Design	Schaltung
Diameter	4 mm
Main colour	black
Type	Außenhülle
Variant	Accessories
