

## CONTEC Ceiling hanger "TFP-100"

black

**Price: €12.99**

The "TFP-100" chain whip from CONTEC is used when a Shimano HG cassette is to be dismantled. It is necessary as a counterholder so that the cassette does not continue to rotate in the freewheel when the locking ring of a Shimano HG cassette is opened, for example, with the "TFP-110" sprocket remover tool. The tool from CONTEC's "Tools for professionals" series is made of steel, has an ergonomic grip part, and its chain whip part is compatible with cassettes from 5 to 11 sprockets.
