

## CONTEC Crank remover "TFM-130"

with 14/15mm socket and 15mm spanner

**Price: €7.50**

Square taper cranks are the standard on many bicycles. If you want to carry out repairs yourself as a hobby mechanic, you need the right tool. Before square taper crankarms can be removed from the bottom bracket axle, the crank bolt must first be loosened. With the CONTEC crank puller, recessed bolts can be easily loosened thanks to the 14/15 mm socket and 15 mm open-ended spanner. The rubber grip of the tool ensures good grip and also enables the crank bolt to be tightened powerfully without slipping. The CONTEC crank puller facilitates drivetrain and bottom bracket repairs on classic square taper cranksets.

### Basic Data

Supplier Article Number:	6632
EAN	4250311359496
MSRP:	€14.95
SB-Article	Yes
DST-Code	2N09
Fedas-Code	160967
Bidex-Code	552050
Brand/Supplier	CONTEC
Unit of measure:	PIECE
Weight	0.225 kg

### Technical Data

Design	chain ring / bottom bracket
Main colour	black
Secondary colour	silver
Size	14 , 15
Use	crank
Variants	Article
