

## CONTEC Star nut installer "TFM-Nut Knocker"

1 1/8", Ø 28,6mm

**Price: €7.99**

In the case of Ahead headsets, the star nut in the fork steerer tube ensures precise adjustment of the bearing clearance. With the CONTEC "Nut Knocker", it is possible to mount the headset star nut safely and without tilting. The tool has a guide pin, which is inserted through the thread of the star nut and thus centres it. Thanks to the supplied adapter, assembly for all common Ahead fork steerer tube dimensions is possible. The "Nut Knocker" safely places the star nut in the fork steerer tube of the bicycle.
