

CONTEC Winter Glove "Frigid TR"

Size XXL / 11

RRP: €39.95

With the "Frigid TR", your hands stay dry when MTBs and remain firmly on the Handlebars even in wet conditions. This is ensured by the Hipora membrane fabric and the silicone print on the palm for a non-slip grip. On the outside, on the other hand, the reflective print ensures that you can be seen when the MTB tour extends into the evening hours. The inside of the "Frigid TR" is ergonomically padded to absorb shocks and protect the joints. This means that even winter mountain bike tours can be sweaty, especially as the terrycloth trim on the thumb is there to wipe away sweat. And you don't have to take the "Frigid TR" off to make a phone call either, as the thumb and index finger have a conductive coating for smartphones. Available in black/coolgrey.
