

CONTEC Rain Cover "Neo.Protect"

black

Price: €12.50

Handlebar cover The handlebar protection cover "Neo.Protect" made of water-repellent plastic protects the handlebar during transport or parking. The display and the remote control on the e-bike are particularly protected. Moisture and rain cannot harm the electronic handlebar components. However, the handlebar cover protects against heavy rain and especially during transport from the swirling water on the roof or rear rack. The cover is attached with the Velcro fasteners on the underside and with two circumferential Velcro straps around the handlebars.
