

CONTEC Front Light "HL-2001 X/O"

with switch for hub dynamo, with standlight, with automatic switch on via bright-dark sensor

RRP: €49.95

With the front light "HL-2001 X/O" by CONTEC, every path is perfectly illuminated in the dark thanks to the bright 70 lux technology. The StVZO-compliant (German Road Licensing Regulation) bicycle light offers a light sensor, which automatically switches it on. In addition, the light has a parking light function. This means that the front light on a stopped bike remains lit for some time, for example when waiting at traffic lights. The light can also be turned off completely via a separate switch.The light is designed for dynamo operation (6 V). It consists of a black metal/plastic composite housing and has a removable front reflector. The compact housing looks particularly sleek due to the combination of matte and shiny surface elements. A mount made of stainless steel also ensures a consistently good look.

Basic Data

Supplier Article Number:	50908-6
EAN	4250311357065
MSRP:	€49.95
SB-Article	Yes
Fedas-Code	160671
DST-Code	2E02
