

CONTEC Front Light "Luna 40"

Luna N, with switch for hub dynamo (special item, bulk)

Price: €10.99

Inexpensive radianceThe name "Luna" means nothing else but the moon. Bright and shining, the LED front light "Luna 40" from CONTEC has a fitting name. With a luminous intensity of 40 lux, it offers a reliable beam of light that other road users will not quickly miss. The dynamo front light has a parking light function. So it stays lit even on a stopped bike. So when you wait at traffic lights or during short breaks, you will still have a good overall view and will be seen. The front light is covered with a plastic housing, on which a bright CONTEC logo is found. In addition, a removable front reflector, which increases the visibility, and a plastic bracket come with this bicycle lighting. While a variant of the "Luna 40" "only" has standing lights, the other variant also has a light sensor, which switches the front light on automatically when darkness sets in. This light is also equipped with a German check number. This means that it is 100 % compliant with the requirements of the German Road Licensing Regulation (StVZO). All in all, the CONTEC "Luna 40" is a safe, reliable dynamo-powered front light that offers a great price-performance ratio.

Basic Data

Supplier Article Number:	51254506-6
EAN	4251507968676
MSRP:	€24.95
SB-Article	Yes
Fedas-Code	160671
DST-Code	2E02
