

## CONTEC Grip "Tour Deluxe Kork"

135mm long

**Price: €12.50**

Comfort & safety thanks to professional handlebar grips Comfort and safety play a decisive role when cycling on and off the road. The CONTEC grip "Tour Deluxe Kork" impresses with its high functionality and a particularly good and pleasant grip. A special feature of the grip is its D3 three-component system, which adapts each part of the grip to the high demands of modern cycling. The product is soft in the back section to optimally absorb all vibrations, whereas in the front it is medium-hard to give the fingers a secure and firm hold at all times. The inside of the grip is particularly hard to connect it and the handlebar safely and reliably. On long rides, hands tire. This is reliably prevented by this ergonomic professional CONTEC grip with its wing-shaped design. This shape prevents the wrists from buckling automatically and also contributes to more comfortable riding. A handlebar clamp is included with this quality product. This bike grip is offered in the attractive colour combination black and cork. The pair of grips has a size of 135 mm or 92/135 mm. With the CONTEC grip "Tour Deluxe Kork", each bike can be upgraded in a functional and visual way.

### Basic Data

Supplier Article Number:	VLG1189D3 CORK
EAN	4250311335940
MSRP:	€24.95
