

CONTEC Pedal "Vice"

black

RRP €79.95

For grippy experiences on the bikeEvery MTB rider loves the feeling of being free to fly through the countryside like a bird on their bike. With the MTB/freeride pedal "Vice", CONTEC delivers the perfect pedal for this feeling.MTB rides through rough terrain with steep climbs, bumpy ground and rapid descents are only fun with the right grip on the pedal. In the modern "Vice" model, this is achieved by the stable CrMo pins, which ensure a good grip. And this grip is convincing in the long run, because the pins can be changed with a few quick turns even by somewhat inexperienced cyclists.Light weight and robustness are also a major advantage for an MTB pedal. In "Vice" this is achieved by the use of stable and rust-free aluminium. Due to the lightweight and also rust-free aluminium body, the 9/16" pedal weighs only about 406 g. For additional strength, even when riding off the beaten path, the sealed cartridge bearings, CNC-milled CrMo axle and innovative aluminium cage are there.The CONTEC "Vice" is a freeride pedal, which also features some good looking highlights. Not equipped with reflectors, this MTB pedal scores exclusively in terms of colour with a sporty and stylish contrast between elegant matte black and silver shimmering chrome. The airy aluminium cage structure and the flashing pins also make for attractive eye-catchers.Lightweight, stable and rust-free aluminium. A convincing grip and replaceable pins. An eye-catcher. With the "Vice" model by CONTEC under your feet, every ride becomes an unforgettable experience for the senses.

Basic Data

Supplier Article Number:	VP-015
EAN	4250311314570
MSRP:	€79.95
