

CONTEC Pedal "Spatula Glitz"

icy

Price: €64.99

Chic & powerful Maintain absolute control when riding through water and mud as well as on steep climbs, deep drops and wide jumps. In the case of technically demanding freeride, enormous forces are exerted, especially on the pedals. The CONTEC MTB/freeride pedal "Spatula Glitz" is perfect for those who don't want to compromise on the quality, ergonomics and reliability of their pedal. The "Spatula Glitz" consists of an extremely flat, CNC-milled and polished aluminium body, whose large contact surfaces are outfitted with sporty blue R-pins for even better grip when things get muddy. The CNC-milled pedal axle with the typical 9/16" thread made of high-strength CrMo steel is break-proof and increases safety in the event of continuous loads. The sealed cartridge bearings are particularly smooth running and effectively counteract wear due to the ingress of moisture and dirt. Due to its solid finish and the use of high-quality materials as well as its low weight of only 200 g and its sporty design, the CONTEC MTB/freeride pedal "Spatula Glitz" meets the high demands of freeride riders. The perfect pedal for top performance.

Basic Data

Supplier Article Number:	WE- B252ALSILBLUE
EAN	4250311354071
MSRP:	€129.95
Bidex-Code	202310
SB-Article	Yes
Fedas-Code	160373
