

CONTEC Chain "Green Power GP.8"

workshop package with 30m (2364 links), incl. 25 connecting links

Price: €8.50

Reliable & corrosion resistant Sporty singlespeeds or city bikes with internally geared hubs - these kinds of bikes are very popular in the city, not least because of their low maintenance in every type of weather. Moisture and salt in winter pose a challenge for every drivetrain and especially for the chain. The "GreenPower" chain by CONTEC is especially designed for year-round use due to its environmentally friendly anti-rust coating. Rust and therefore premature wear have no chance. The chain is available in titanium grey and in the dimensions 1/2" x 3/32". Thanks to the practical master link, assembly and disassembly are straightforward: The ends of the chain are simply stuck into the pins of the master link and then pressed together. Due to its corrosion resistance, the "GreenPower" chain is ideal for all singlespeed bikes and bikes with internally geared hubs, which are used all year round.
