

## CONTEC Front Light "Luna 40 E+"

black

**Price: €13.99**

Good visibility for the e-bike Well thought out lighting for the e-bike: The "Luna 40 E+" by CONTEC provides reliable visibility in the dark. With a lighting intensity of 40 lux, the front light ensures safety. The light is connected to the DC system of an e-bike. It works with all batteries with a voltage of 6 to 48 V. "Luna 40 E+" has a plastic housing, which is adorned with a shining CONTEC logo. In addition, the front light has a removable front reflector. With this, visibility and safety in road traffic are even greater. A plastic bracket for fastening to the fork crown is also included in the scope of delivery. The front light is equipped with a German check number. It therefore provides reliable safety according to the German Road Licensing Regulation (StVZO). Thus, there is nothing in the way of carefree riding pleasure. This light is also ideal for frequent rides, whether on the way to work or for running errands in the city. In any case, the "Luna 40 E+" by CONTEC is a useful companion, with which you can draw attention to yourself well.
