

CONTEC Combination Chain Lock "PowerLoc"

560g

RRP: €29.95

Sophisticated protection for high demandsThe CONTEC combination chain lock "PowerLoc" offers 10,000 combinations. Thieves don't stand a chance when it comes to cracking the code to steal a high-quality bike.With the "PowerLoc" by CONTEC, the power is in the material: Hardened special steel in this bicycle lock is an almost insurmountable barrier against sawing, hitting or cutting. Whoever secures their bike with this chain lock, can trust the reliable security level 8 of 10.The lock is also a clever way of fighting off thieves - and that in three ways: First, it is the many combinations of numbers that do not allow other to guess the correct code. Second, the X2-Power "Double Bolt Locking System" provides convincing pull resistance, as the bolt is locked on both sides and thus double-secure. Third, there is the innovative Click-Combo-Gear system. Here, steel balls are inserted in the adjustment mechanism. This makes it impossible to pull or drill.The cover also fits perfectly into the protective concept of this bicycle lock. Inside, the waterproof nylon sheath protects the steel from contamination and moisture. It ensures long-term durability and functionality. Nylon on the outside keeps the rider's frame and hands free from scratches. Uncomplicated use is thus guaranteed with this chain lock. The powerful "PowerLoc" model comes in classic and discreet black and reliably protects every bicycle. It is easy to open and close. First-class comfort and optimum safety for high-quality bicycles.

Basic Data

Supplier Article Number:	***
EAN	4250311341637
MSRP:	€29.95
SB-Article	Yes
Bidex-Code	301550
DST-Code	2H04
Fedas-Code	160592
Brand/Supplier	CONTEC
Unit of measure:	PIECE
Weight	0.613 kg

Technical Data

Design	chain lock
Diameter	6.0 mm
Length	75.0 cm
Locking type	code combination
