

SHIMANO Pedal "PD-T421"

black

RRP: €80.95

Pedals from SHIMANO Tired of slipping off the pedals on steep bends or difficult terrain? The PD-T421 from SHIMANO is a System Pedal that creates a fixed connection between the Pedal and special shoes to counteract this. The body is made of aluminum, which - along with steel - is a tried and tested material for pedals. It combines weather resistance and rigidity with a comparatively low weight. The manufacturer has chosen plastic for the frame. The Pedals are compatible with the SHIMANO SPD system.
