Price: €1,834.95

Faithful city and touring companion Versatile use - this was CONWAY's motto when developing the "Cairon T 2.0 625". The trekking bike is a loyal companion for short rides through the city as well as long and extensive rides through the countryside after work or at the weekend - with the 625 Wh Battery, which disappears elegantly into the down tube, this model is even better. The drives are made up of the BOSCH "Performance" engine and the 9-speed derailleur gears from SHIMANO. With powerful thrust and fine gear steps, top speeds of up to 25 km/h can be achieved. The extremely reliable hydraulic Disc Brakes from TEKTRON are there for precise braking. Last but not least are the 50 mm wide CONTI tires in combination with the Suspension Fork and the suspended seatposts, which give the "Cairon T 2.0 625" plenty of comfort. The CONTEC LED lighting and Reflective Stripes on the tires ensure that other road users can see you better in the dark or when visibility is poor. The Carrier can take all the bags packed with spare clothing or provisions for excursions. The Fenders, on the other hand, make the bike more suitable for use in the city. Dirt and splash water are kept out with ease.
