Not every road is smooth. Not every route is forgiving. The Desert is made for precisely these moments - for cobblestones, kerbs, sudden rain. For people who need to rely on their tires because they want to do more than just get from A to B on their e-bike at up to 25 km/h. The Condura Desert is a robust Clincher Tires for everyday use in the city and trekking sector. In classic black and equipped with an integrated Reflective Stripes, it ensures visibility and safety - even in poor lighting conditions. With its durable 22 TPI/EPI carcass, it offers a stable structure, reliable puncture protection and superior running properties - even on rough surfaces. The durable rubber compound and grippy tread make it the ideal companion for anyone who is on the road every day and doesn't want to compromise.
