CONTEC threaded stem You decide how you sit on your bike - and also with the choice of stem. You like it more relaxed? You get that with a short and steep stem. If you like it more sporty, it's the other way around. CONTEC has with its Seto Stick a threaded stem that is clamped in the steerer tube with a diameter of 22,2mm. Therefore, it is variable in height. The angle can also be adjusted. The shaft length is 60mm (note minimum insertion depth!).
