

CONTEC Handlebar "Moab"

Ø 25,4mm, grip width: 640mm, rise 25mm, backsweep 8°

Price: €14.99

CONTEC handlebar The Moab is a handlebar with a width of 640mm. CONTEC manufactures it from lightweight aluminum. The handlebar has a clamping diameter of 24,5mm. The backsweep of 8° allows you to grip the handlebar more ergonomically than one without this bend. The backsweep describes the handlebar bend in the direction of the saddle and should avoid the overstretching of the hands and the upper body. The more backsweep, the more relaxed the seating position. And likewise the other way around. To counteract feelings of rollover on steep descents, the handlebar has a rise of 25mm.

Basic Data

Supplier Article Number:	HBRB12 25,4X640
EAN	4251507967389
MSRP:	€29.95
Bidex-Code	205010
SB-Article	Yes
