

CONTEC Handlebar "Moab"

Ø 31,8mm, grip width: 740mm, rise 15mm, backsweep 9°

Price: €14.99

CONTEC handlebar is often underestimated, but it contributes a significant part to determine whether your next tour will be a torment or not: the handlebar. The Moab from CONTEC is a handlebar with a width of 740mm. Made of aluminium. The stem clamp is 31,8mm. Due to the backsweep of 9° you can grip the handlebar more ergonomic than one without this bend. The backsweep defines the bend of the handlebars in the direction of the saddle and is intended to avoid overstretching the hands. Rise designates the increase in the handlebar ends in relation to the stem. Here it is 15mm.

Basic Data

Supplier Article Number:	HBRB12L 31,8MMX740MM
EAN	4251507967327
MSRP:	€29.95
Bidex-Code	205010
SB-Article	Yes
