

CONTEC Handlebar "Moab"

Ø 31,8mm, grip width: 700mm, rise 25mm, backsweep 9°

Price: €14.99

CONTEC handlebar The Moab is a lightweight aluminum handlebar made by CONTEC with a width of 700mm. The handlebar has a clamping diameter of 31,8mm. The backsweep of 9° allows you to grip the handlebar more ergonomically than one without this curvature. The backsweep describes the handlebar bend in the direction of the saddle and should avoid the overstretching of the hands and the upper body. The more backsweep, the more relaxed the seating position. And likewise the other way around. To counteract feelings of rollover on steep descents, the handlebar has a rise of 25mm.

Basic Data

Supplier Article Number:	HBRB12L 31,8X700MM
EAN	4251507967334
MSRP:	€29.95
Bidex-Code	205010
