

SRAM Crank Set "Rival 1 AXS"

46 teeth, 175mm crank length

Price: €98.00

Crisp shifting, harmonious look Thanks to its "Wide" design, the "Rival 1 AXS" crankset from SRAM is ideal not only for road bikes, but also for gravel bikes. Thanks to the "Wide" design, the single-speed version produces a larger chainline of 47.5 mm - which means that even wider gravel tires have enough space. The aluminum chainring is mounted via direct mount and, together with the black crank arms, creates a harmonious look. All twelve gears can be shifted smoothly and quickly. Available with a choice of 40 or 46 teeth and in various lengths. Supplied without Bottom Bracket.
