

CONTEC Spring "Nara"

soft (for approx. 50-70kg), green

RRP: €10.95

More comfort, more riding fun: Our CONTEC springs made of steel in the strengths soft, medium and Hard are designed to optimally adjust the spring behavior of our "Nara DLX" and "Nara" suspension seatposts to the individual rider's weight. The different strengths, easily recognizable by the three colors (green for soft, yellow for medium and blue for hard), allow a comfortable suspension for riders of all weights. Soft is best suited for rider weights between 50-70kg, medium for 70-90kg and hard for 90-120kg. Despite the different strengths, the spring itself weighs just 80 grams.
