

CONTEC QR Wrench Set "SQR+ M"

black

Price: €9.99

Theftproof & lightweight The bike is locked, the seatpost and wheels can still be stolen. To prevent this, CONTEC has developed a special quick release set that saves you from exactly this annoyance, because the quick release axles can only open with the appropriate safety lever. The set consists of a quick release wrench, a front wheel axle (M5 x 110mm), a rear wheel axle (M5 x 145mm) and a seatpost clamp (M6 x 45mm). The axles of this set are made of high quality chrome molybdenum steel and 6061 aluminum. Here you benefit from a high tensile strength and breaking strength as well as a low weight.
