

Stan's Tire Sealant "Race Sealant"

946ml (32 oz)

RRP €44.95

Puncture-proof in the raceSTAN'S Race Sealant is a very practical feature to ensure that your tires don't lose air during training rides or races and remain sealed even in the event of minor damage. The Race Sealant is applied directly to the rims. The variant is specially designed for performance-optimized applications and reliably seals larger holes of up to 8 mm. The manufacturer recommends checking the sealant every two to three weeks. Even at extreme temperatures far below freezing and for up to six months in general, the puncture protection remains liquid in the tire.

Basic Data

Supplier Article Number:	ST0070
MSRP:	€44.95
SB-Article	Yes
Bidex-Code	309030
Fedas-Code	160968
DST-Code	6103
Brand/Supplier	Stan's
Unit of measure:	PIECE
Weight	1.05 kg

Technical Data

Container size	946 ml
Design	tire sealant
E-bike type	ready
Main colour	black
Secondary colour	red
Variant	Article
