

## Stan's Repair Kit "Tubeless Dart Reifen"

refill package with 5 sets

**Price: €10.61**

For quick and easy repairs To seal larger holes or cuts, there's the STAN'S "Dart" repair kit. It is very easy to use: plug the plastic syringe - the "Dart" - into the hole in the tire and you're done. After a short time, a chemical bond is formed with the sealing milk, whereby the "Dart" develops into a reliable sealing plug. Excess material does not need to be removed, it simply falls off. No matter what sport you pursue - the "Dart" repair kit is suitable for wheels from the MTB, road, cyclocross and gravel segments. Best of all: with its compact size, the bundle fits in any lenseys or saddle bag.
