

SRAM Rotor "HS2"

6-hole, Ø 160 mm, with steel Mounting Screws

RRP: €58.00

The SRAM HS2 stainless steel brake rotors have been specially developed for MTB and E-MTB and offer noticeably improved braking performance and reduced noise compared to previous rotors. This is made possible by the 2.0 mm thick rotors, an optimized profile for better pad traction and recessed spokes with a heat-dissipating coating that significantly improve heat management. The rounded outer edges increase safety and facilitate wheel installation.

Basic Data

Supplier Article Number:	00.5018.176.000
EAN	710845862328
MSRP:	€58.00
SB-Article	Yes
DST-Code	2Q06
Bidex-Code	203020
Fedas-Code	160405
Brand/Supplier	SRAM
Unit of measure:	PIECE
Weight	0.158 kg

Technical Data

Diameter	160.0 mm
Features	optimized heat dissipation , reduced noise , rounded edges
Main colour	silver
Mount	IS (6-hole)
Secondary colour	black
Variant	Article
