

AXA Rear Light "Juno E-Bike"

screw distance: 50mm

RRP: €30.95

LED Rear Light "Juno E-Bike" from AXARiding home from a party at night, through the urban twilight in the morning or on the roads in the rain: Highly visible lighting is the be-all and end-all on bikes. The compact AXA "Juno E-Bike" is a rear light for e-bikes that can be easily connected to a 6-12 V e-bike Battery thanks to the practical pressure connections.The integrated brake light function indicates to following traffic when you need to slow down or brake abruptly. This allows other cyclists to react more quickly. Thanks to its intelligent design, the "Juno e-bike" also makes you visible from the side. With the AXA rear light, you are easy to see in traffic when cars or other cyclists approach from behind or when you are approaching a junction that you are crossing.As the AXA Rear Light has a generous light cone, you will be noticed from a distance of around 500m. The integrated reflector also helps to further increase your visibility. The rear light can be mounted at a distance of 50 or 80 mm. The material for this is included in the scope of delivery.

Basic Data

Supplier Article Number:	91840195SC
EAN	8713249315188
MSRP:	€30.95
DST-Code	2E03
Fedas-Code	160672
WEEE registration number	DE92509320
