

CONWAY Electric SUV "Cairon SUV 5.0" Mod. 23

diamond, 29", anthracite matt / black metallic, 12-speed SRAM "SX", 57 cm / XXL

RRP: €4,199.95

CONWAY's SUVs combine off-road capability and superior handling with an exciting driving experience and comfort. For even more riding fun, the developers have upgraded the “Cairon SUV 5.0” with a more powerful engine and the BOSCH “PowerTube” battery—which offers the longest range and is fully integrated into the Frame.With the four assistance levels of the powerful BOSCH “Performance CX” engine and the 11 gears of the SHIMANO “Deore” derailleur, you can easily adjust the assistance up to 25 km/h. The 750-Wh battery can either be removed from the bottom for charging, or you can simply leave it in the Frame and charge it via the Charging Socket on the left side of the Frame.To ensure top performance and comfort even on unpaved trails, the 58-mm-wide CONTI tires feature a fine tread pattern and, together with the 120-mm SUNTOUR Suspension Fork, effectively absorb the bumps of dirt and forest trails as well as cobblestones.The hydraulic disc brakes from TEKTRO (front and rear disc diameter: 180 mm) ensure the necessary safety during both fast downhill rides and in city traffic. The braking power can be finely controlled, yet it won’t let you down when you need it most. Thanks to fenders and a lighting system, every ride on the “Cairon SUV 5.0” can be extended into the late evening hours, no matter the weather.
