

QiO Transport Carrier "Luk"

matt black

Price: €62.95

MIK or KLICKfix? LUK can do both!"Luk" is the transport solution to take bags and baskets with you when you are on the road with your QiO bike. The large front carrier has an integrated MIK system with a maximum load of 15kg. In addition, QiO has equipped the "Luk" with a height-adjustable KLICKfix adapter that can carry up to 7kg. "LUK" is attached to the steering tube of your QiO bike via a 4-point mount. The transport options are ideal to transport shopping in the basket home or a small bag for the road to click in front to have it always in view. The highlight: the KLICKfix adapter has a lock, which is why your bag is protected from thieves. At both holders, suitable accessories can be quickly and easily clicked in. The front carrier "Luk" is suitable for all QiO models. An additional adapter is required to attach the front rack to the EINSx.
