

CONTEC Pedal "Tenderizer"

black

RRP: €34.95

Lightweight, high quality and reliable - that's how we would describe the CONTEC Pedal Tenderizer in three words if we had to. The good news: There's plenty more room to describe it here, so go ahead!The Tenderizer weighs just under 180 grams and is thus the lightweight among MTB pedals. The platform pedal consists of a one-piece nylon body and has a sealed industrial bearing. It also has a CrMO axle and a SL bushing. The pins (R-pins) can be easily replaced should some be lost after a wild ride over the trail. Any questions?
