

## SUPERNOVA Rear Light "E3 Tail Light 2"

black polished, seatpost attachment (special item, bulk)

**Price: €26.79**

Rear Light Insurance Anyone who is guided by a powerful front light on their bike also wants to be seen and protected by the rear lights. SUPERNOVA has therefore developed the "E3 Tail Light 2" for the E3 Front Light. With "Twin Beam Technology", it offers very bright illumination to the rear and sides of a total of 250°. The parking light electronics of the E3 Tail Light 2 are outsourced to the E3 Front Light. This explains the small design and the weight of just 12 g of the CNC-milled rear lights. It is also completely waterproof and, with its three LEDs, is one of the brightest rear lights approved according to StVZO. Available in different paints for mounting on the seatpost and Carrier.

### Basic Data
