

## VICTORIA Electric SUV "Avyon 4" Mod. 24

diamond, 27,5", safari sand matt, 1x9-speed Tektro RD-M350, 58 cm / L

**RRP €3,999.00**

The "AVYON 4", which, like its siblings, is equipped with the "Performance CX" engine, is our entry into the world of Victoria Overlander with Bosch "Smart System" drives. It gets its energy from the "PowerTube 625". The new, clearly structured "Kiox 300" color display is not only easy to read during the day and in the dark, it is also very easy to operate via the LED remote unit on the left-hand side of the Handlebar. The various speed levels can also be customized using the free eFlow app in Victoria design. Depending on requirements, they provide more assistance than the factory setting or consume less power. On the suspension side, the "AVYON 4" is also equipped with an air suspension fork and sturdy Thru Axles at the front and rear, which can be experienced directly from the first few meters in the form of a very safe riding experience. It comes to a safe stop with 203/180 mm hydraulic disc brakes, and even with a sturdy four-piston brake system at the front. The new Shimano "Cues" 9-speed derailleur changes gears. The new "eRuban" SUV all-round tires from Continental help to increase tires thanks to the energy-saving tread. The higher shoulder lugs provide the necessary grip on damp meadows and loose ground. The "AVYON 4" is available in two Frame versions and paints. As with all new Victoria developments, the Bosch PowerTube batteries integrated in the down tube can be removed from the top, but can of course also be charged directly in the bike when installed.

### Basic Data

Supplier Article Number:	KHA23193
EAN	4251971110410
MSRP:	€3,999.00
WEEE registration number	DE92509320
DST-Code	1B01
SB-Article	No
Bidex-Code	122010
Fedas-Code	155021
Brand/Supplier	VICTORIA
Unit of measure:	PIECE
Weight	28.9 kg
