

VICTORIA Electric SUV "FYBRON 5" Mod. 24

wave, 27,5", inferno red , enviolo "Automatiq", 56 cm / L

Price: €5,200.00

The idea of a lightweight SUV series is taking shape with the "FYBRON" series. But Victoria wouldn't be Victoria if we didn't live up to our credo of comfort utility bikes with a hub gear version here too. The result is the "FYBRON 5", which is powered by a continuously variable Enviolo internal gear hubs and low-maintenance Gates carbon Straps. Like its "FYBRON" siblings, it receives powerful torque support from the Bosch "Smart System" with "Performance CX" engine and "PowerTube 750" battery. The carbon overlander is impressive in practice. The air-sprung FOX AWL (Adventure without Limits) 100 mm Fork was specially developed for use on fully equipped SUV e-bikes and responds extremely sensitively. The Bosch "Kiox 300" color display provides razor-sharp information even in the dark and can be operated intuitively via the LED remote. It is compact and offers a color display that is protected from splash water and dust and is easy to read. Fully networked in the smart system, it continuously receives new functions via the eBike Flow app. The lightweight wheels with Superlight tubes and low-profile MTB tires with low-rolling resistance tread have a positive effect on the relatively low overall weight. The permissible total weight of the "FYBRON" series, including rider and luggage, is 140 kg. In addition to the weight savings, the carbon frame naturally offers another advantage: the design language is seamless and organic due to the lack of visible joints as with welded aluminum frames. It looks as if it has been cast from a single mold. The 120 lux of the LED front headlight also extends the tour into the dark. A special highlight: the Front Light has a high beam function that can be activated at the touch of a button on the Handlebar, which further enhances visibility at night. All "FYBRON" models are available in two Frame versions. As with all new Victoria developments, the Bosch PowerTube batteries integrated in the down tube can be removed from the top, but can of course also be charged directly in the bike when installed.

Basic Data

Supplier Article Number:	BK23HV6050
EAN	4251971110748
MSRP:	€6,990.00
WEEE registration number	DE92509320
DST-Code	1B01
SB-Article	No
Bidex-Code	122010
Fedas-Code	155021
Brand/Supplier	VICTORIA
Unit of measure:	PIECE
Weight	27.1 kg

Technical Data

Battery capacity	750.0 Wh
Bosch Smart System	yes
Brake system	hydraulic disc brake

Colour designation	inferno red
Drive	belt
Drive system	BOSCH Performance Line CX
Drive version	middle motor
E-bike	yes
Engine power	250 W
Features	chain guard , electronic sliding aid , fender , suspension fork , system carrier
Frame height	56 cm
Frame shape	wave
Frame size	L
Gears	stepless
Gender	ladies
Main colour	red
Material 1	carbon
Model series	Fybron
Permissible system weight	140 kg
Seat tube	560 mm
Secondary colour	black
Shifting name	enviolo "Automatiq"
Shifting type	internal gear shifting
Support	up to 25km/h
Travel	100 mm
Type	SUV
Wheel size	27,5 "
