

NOXON Children bike "Skimpy" Mod. 24

wave, 12", purple, 1-speed coaster, 22 cm

RRP €239.95

Learning to ride a bike through playThe "Skimpy" from NOXON is a fun way for children to learn to ride a bike. For the first pedal turns, the wave frame, similar to a Wheel, offers a deep step-through for easy mounting and everything that makes a first bike so special. The steel frame provides an upright sitting position to ensure a good view of the bike. Added to this are the closed chain boxes and the impact protectors on the grips to prevent little hands from slipping sideways.As the balance bike is not intended for road use, it has no lights. However, all the reflectors at the front and rear as well as on the sides of the spokes ensure that they can be seen. The single-speed gears offer the classic coaster, while the child brakes on the Front Wheel with a reliable V-brakes including child-friendly grips. Saddles and Stem can be individually adjusted to the child's height to the centimeter - everything to make the first attempts at riding a bike a memorable one.

Basic Data

EAN	4251507946629
MSRP:	€239.95
Fedas-Code	159010
DST-Code	1C00
Bidex-Code	111010
SB-Article	No
