Cool looks meet practical features The "Sweeper FG ND" from NOXON has everything a decent youth bike needs: First and foremost, it's the cool appearance that young bikers like to show off. Then there is the sporty but upright posture to keep an overview in traffic and the extensive equipment, which is both practical and complies with legal requirements. The "FG" in the model name stands for Suspension Fork, which dampens together with the 50 mm wide tires. The "ND" in turn refers to the Hub Dynamo, which supplies the LED Front Light and Rear Light plus parking light function with energy. The Carrier is also practical for everyday use. For sporty rides, it can be easily removed together with the Fenders in just a few handles / grips.
