Discover the CONWAY RYVON LT 4.0 E-MTBs - your ultimate trail partner for every adventure! With innovative features and a well thought-out design, this bike offers everything you need for an unforgettable off-road experience. Our engineers have equipped the RYVON LT 4.0 with an interchangeable battery concept that takes energy efficiency to a whole new level. Enjoy longer rides with more power, because our battery has a higher energy density. And if you want to refuel on the trail, you can change the battery in seconds and continue riding immediately. The battery cover has a magnets parking position on the top tube of the frame. This means that you can easily and securely hold it in place while changing or charging the battery. The RYVON LT 4.0 combines lightness and maximum stability in a unique package. Thanks to advanced materials and construction techniques, you'll achieve incredible agility on the trail without compromising on durability. We understand that every rider has unique requirements. That's why we developed CONWAY Ergonomic Sizing. Our frame sizes are perfectly matched to your needs and offer different grip diameters, stem lengths, handlebar widths and crank lengths depending on the frame size. This gives you a customized riding experience that suits you. The RYVON LT 4.0 was born for the trails. With modern geometry and a 170 mm carbon chassis, it offers you just the right mix of stability and maneuverability. Whether you prefer technical descents, steep climbs or flowing single trails - this bike is ready to accompany you on any terrain. A big grin at the end of your ride is guaranteed!
