

CONWAY Electric MTB hardtail "Cairon S 2.0 500" Mod. 24

diamond, 29", black metallic matt / turquoise metallic, 9-speed TEKTRONIC "M350", 49 cm / L

Price: €1,959.95

The "Cairon S 2.0 500" takes you off-road in a balanced and sporty manner! The entry-level model in the MTB range starts the new model year with a technology update. The bike is now equipped with the Bosch Smart System and is therefore fully networked and compatible with the E-Bike Flow app. The Battery is fully integrated into the down tube, making the bike particularly slim and tidy. The 4th generation Bosch "Performance CX" mid-motor is powered by the 500 Wh Battery. The Tektro derailleur takes care of the finer details of the drives. If you accelerate hard, you also need to brake precisely: the hydraulic Disc Brakes with their 180 mm disc diameter do this extremely reliably. The e-hardtail is suitable for trails and touring with the RST Suspension Fork, which provides a lot of compensation with its 120 mm. With its large 29er wheels, the "Cairon S 2.0 500" has already laid the foundation for bumpy trails. In combination with the chunky tread of the Schwalbe "Tough Tom" tires, the bike is designed for trails.
