

CONWAY MTB hardtail "RLC 2.9" Mod. 24

hardtail, 29", blue metallic / topaz metallic, 12-speed SRAM "SX", 39 cm / S

Price: €1,176.95

Awaken the racer in you! The "RLC 2.9" is a carbon hardtail with a lightweight, torsionally rigid frame with race-oriented geometry, equipped with solid drives, tires, forks and brakes. Whether it's for your personal best time on the after-work lap or in a marathon or cross-country race: the "RLC 2.9" offers all the prerequisites for this at a fair price. Shifters are provided by the "SX Eagle" derailleur system, which offers an introduction to the 12-speed SRAM world. If you want to try out the SHIMANO "Di2" drivetrain later on, it can be easily installed on this bike, as the frame is just as well designed for internally routed shifting cables. The 100 mm travel of the ROCKSHOX Fork and the "Race King" tires from CONTI, which impress above all with their versatility and smooth running, provide damping comfort on cross-country rides. The developers of the "RLC 2.9" have given it a bump stop to prevent the Handlebar from turning over to the top tube and damaging it. Another nice and clever solution are the screw inserts for attaching the Brake Caliper. If the Brake Caliper should tear out in the event of a fall, only these need to be replaced and the Brake Caliper can continue to be used. All in all, the "RLC 2.9" is a well-rounded bike that can be ridden for a long time until individual parts are upgraded.

Basic Data

Supplier Article Number:	BK23HA0010
EAN	4251971102903
MSRP:	€1,999.95
Bidex-Code	101010
DST-Code	1E00
SB-Article	No
Fedas-Code	154010
Brand/Supplier	CONWAY
Unit of measure:	PIECE
Weight	11.6 kg

Technical Data

Brake system	hydraulic disc brake
Chainstay	424 mm
Colour designation	blue metallic / topaz metallic
Drive	chain
E-bike	no
Features	suspension fork
Frame height	39 cm

Frame shape	hardtail
Frame size	S
Gears	12-speed
Gender	gents
Main colour	blue
Material 1	carbon
Model series	RLC
Permissible system weight	130 kg
Reach	400 mm
Seat angle	73.5 °
Seat tube	390 mm
Secondary colour	green
Shifting name	12-Gang SRAM "SX"
Shifting type	derailleur shifting
Stack	609 mm
Steering tube	95 mm
Steering tube angle	69.5 °
Stem length	60.0 mm
Toptube	580 mm
Transmission	1x 12-speed
Travel	100 mm
Type	hardtail
Wheel distance	1079 mm
Wheel size	29 "
