

## CONWAY MTB hardtail "MS 9.9" Mod. 24

hardtail, 29", darkpetrol metallic / red, 12-speed SRAM "NX", 56 cm / XL

**Price: €787.00**

Anyone who rides the CONWAY "MS 9.9" quickly realizes that this hardtail is a real all-rounder. Whether cross-country, on gravel tracks or playful trails - the all-round MTB feels at home everywhere. In addition to the sporty, balanced riding style, the "Judy TK Solo Air" from ROCKSHOX with its 100 mm suspension travel is primarily responsible for this. This means the bike is equipped for sporty use and scores points for comfort. The 29er SCHWALBE "Rapid Rob" tires provide the best rollover performance over rocks and roots. With a tire circumference and a width of 57 mm, the contact surface of the profiled tires is also high, which explains the secure grip on gravel and forest soil. With the 12-speed SRAM "NX Eagle" drivetrain, you can crank up long climbs and short, steep and steep ramps - the wide gradation of the cassette with 11-51 teeth makes it possible, as does the sprint to the finish on the after-work lap. The drives also do away with the Front Derailleur and a Shift Lever, making shifting fun in the truest sense of the word. On the downhill, on the other hand, the Suspension Fork and the grippy Tires on the "MS 9.9" score points, allowing you to really let the hardtail run. The SHIMANO "BR-MT200" hydraulic disc brakes keep the bike in check. With disc diameters of 180 mm at the front and 160 mm at the rear, they offer decent reserves for sensitive distribution of the high braking forces on all cross-country and marathon courses and all tours through the countryside.
