

EXCELSIOR Balance bike "Retro Runner" Mod. 24

unisex, 12", grey blue,

Price: €76.00

The "Retro Runner" Wheel from Excelsior is the perfect introduction for your kids to the world of cycling. Without pedals, they learn to keep their balance naturally and make their first attempts at riding. The curved top tube makes it easier to get on, while the balloon tires ensure a safe ride. The robust steel frame offers optimum control, whether playing or learning. With a wide saddle and adjustable Handlebar, the Wheel grows with your child. This not only extends the range of movement on walks, but also prepares them perfectly for the transition to a children's bike.
